Long overdue review. I can't recommend Howard and Chad enough! They always provide very thorough, clean, and accurate work even on one of my more difficult vehicles to work on. For example, I had them build some custom hydraulic lines for my steering and they have performed flawlessly. They even made a custom bracket to make sure the new lines don't rub on anything under the truck without me even asking for it. Accurate Auto Care is the place to go for your automotive repairs in Livermore!

Howard and his team at Accurate Auto Care are awesome! My check engine light had been on for a while and mickey moused attempts to fix the problem weren't getting me anywhere. I don't usually pay \$200 for diagnosis, but I'm extremely happy to have done so. Expert diagnosis. Professional. Accurate work! They fixed the issue and smogged my vehicle matching the price off a coupon I had for another place. Also, my car had this noise and shaking that had been driving me insane for a very long time. They informed me I needed a new rim on my front drivers side tire (not something they do). I followed his advice and the noise and shaking is gone. Others attempted to fix the problem before but they obviously weren't experts. My car drives smooth again! Don't waste your time going elsewhere. Thank you Accurate Auto Care!

Awesome first experience! Good rates, friendly and great attention to detail. Did a fab job changing out lower control arms on an Land Rover LR3. Will definitely be calling on Howard again for future work.

Oct 12, 2012 | Livermore, CA | Cyndy M.

Honest auto repair!! They give you good advice and don't try to cheat you. Easy to make an appointment, the guys are pleasant, and the work is done on time for the price quoted. They have integrity and stand by their work. Good follow up with customer's questions, too. I'll go to them for every repair my vehicle needs.

Jul 14, 2012 | Livermore, CA | Brian B.

Took my car in for two items. One was an expertly repaired repair of a botched 'do it yourself' job. The other was expertly diagnosed but I chose not to make the repair because it was a high dollar investment in a low dollar car. The service was fantastic and I like the documentation of the repair. Very professional and highly recommended. Most of the people picking up or dropping off cars were regulars which says a lot!

I have been taking my cars to Accurate Auto Care for some time. They are always so friendly and remember you every time you call. Amazing service and do a great job for a reasonable price. They will not try to sell you parts that are not need. Love them and would highly recommend them to anyone.
